### **USDA RURAL DEVELOPMENT ANNOUNCES FEDERAL FUNDING FOR THE LA JOYA WATER SUPPLY CORPORATION**

**Ja Joya, Texas, April 1, 2003** — Bryan Daniel, state director, Texas USDA Rural Development announced today that the La Joya WSC received a \$4,002,500 loan and grant through the agency's Rural Utilities Service Water and Waste Loan and Grant program. The effort is part of USDA's national program to help provide rural areas with safe, dependable water and modern sewage systems.

"One of the goals of USDA Rural Development is to provide water and wastewater treatment programs that target public health benefits and provide economic opportunities to America's rural communities," said Daniel. "Rural Texans can utilize our programs to help provide essential public services that will enhance their quality of life."

The funds will be used to upgrade the La Joya WSC and extend its water systems.

In Fiscal Year 2002, \$91.7 million of loan and grant assistance was infused into 61 projects and 106,000 rural Texas households. USDA Rural Development's water and wastewater program is designed to bring fresh, clean drinking water and sanitary, environmentally sound sewage facilities to rural America's 53 million residents. Loans and grants are available to rural communities with fewer than 10,000 residents. Public bodies, corporations operated on a nonprofit basis, and Indian tribes, that are unable to obtain credit from other sources at reasonable rates and terms, are eligible for assistance.
